

### FEATURES <<

#### **Bats, Man! / 25**

Scientists are zeroing in on a critical threat to creatures of the night

#### **Brilliant Badasses / 28**

Fifty years after NASA's first astronaut recruits: These space-cowboys-in-training made fraternity hazing look like a cakewalk

#### **Fear & Popcorn / 34**

From giant monsters to natural disasters, the silver screen showcases our real-world fears and paranoia

#### **Rock Stars / 36**

Meet the Indiana Joneses in search of space treasures in the meteorite-hunting world

#### **Spies Like You / 40**

In a world of click, film and post, is Little Brother watching you, too?

### THE WEB <<

#### **What's new this month at *SciQmagazine.com***

##### **Vacation, But Better**

Dive with whale sharks, chug a pint at Britain's best pubs and snap photos from space on these scientific adventures

##### **Games 2.0**

If board games make you bored, and video games leave you stiff, these next-generation European imports are your ticket to excitement

##### **Mercury 7 Photo Gallery**

Take a glimpse at the oddball training programs, risky missions and outdated outfits of NASA's first astronauts

##### **The Best Sci of All Time**

Magnificent man-ventions we can't live without
